Vellore-632209, Tamil Nadu, India

Summary

Full Stack Developer with hands-on experience building responsive, database-driven web applications. Strong foundation in backend development, REST API integration, CRUD operations, and problem-solving, with exposure to AI-powered features.

Key Engineering Skills

- REST API Development and Integration
- CRUD Operations and Database Design
- Authentication and Authorization Workflows
- Responsive UI Development
- Version Control using Git

Certifications

- Full Stack Developer
- Google Analytics certificate
- Oracle Cloud Infrastructure
- DBMS (NPTEL)

Projects

Egram Application

- Designed and developed a full-stack ed-tech platform with authentication, role-based access, and database-driven dashboards.
- Implemented CRUD operations and REST-style backend logic using PHP and MySQL.
- Integrated responsive UI components using HTML, CSS, and JavaScript.
- Improved content management workflow for educators and professionals.

Fake News Detection Application

- Built an NLP-based web application to classify news as real or fake.
- executed TF-IDF feature extraction and trained SVM and DistilBERT models.
- Exposed prediction logic through a Flask-based web interface.

THE AI-Venger APPLICATION (AI Chatbot)

- Developed an AI-powered chatbot integrated into a web application for student support.
- applied backend logic using Python and frontend integration using JavaScript.
- Delivered instant academic and career-related responses.

FRIENDLY.AI (IN PROGRESS)

- Fine-tuning a Tamil-English conversational AI model optimized for offline CPU inference.
- Using LoRA, Hugging Face, and llama.cpp for efficient deployment.

Education

B.Tech – Artificial Intelligence & Data Science

J.J. College of Engineering and Technology

Expected Graduation: May 2027

CGPA: 8.0 / 10.0 (4 SEM)

Skills

Frontend: HTML5, CSS3, JavaScript

Backend: PHP, Python, Flask

Database: MySQL

Core CS: DSA, OOP

Tools: Git, GitHub, AI Integration

Technical Highlights

- Developed end-to-end full stack web applications with frontend–backend integration.
- Designed and enforced database-driven systems using MySQL.
- Built REST-style APIs and integrated them with responsive UIs.
- Integrated AI-based features into real-world web applications.

Achievements

Symposium

- 1st Place – Paper Presentation, Neurax'25 (M.A.M. College of Engineering)
- 2nd Place – Project Presentation, Gusto'25 (GEC, Erode)

Hackathon

- Smart Innovators Hackathon 2024 (Robotics & AI)
- Smart India Hackathon 2024

Internship

Web Development Intern

CrestaCore ARPA Pvt. Ltd. – Feb 2025 – May 2025

- Developed backend CRUD modules and integrated frontend components using PHP and MySQL.
- Improved UI responsiveness and resolved functional defects.
- Collaborated with senior developers using Git-based version control.
- Achieved 95% project evaluation score.

Extra-Curricular

Yash Coding Tuition (May 2025 – Present)

- Mentored students in Programming Languages and Web Development.
- Designed curriculum and promoted project-based learning.
- Website: <https://www.yashcodingtuition.com>
